Experience

Course Description

We believe that in the modern and global era it is vital to understand and be familiar with the international business system to be able to grow and successfully attain career goals.

A key requirement to access the global market is having a complete vision of all the dynamics that intervene in the everyday core business. We have created a unique customizable program that combines current company projects with key study concepts to help students and business professionals be ready and prepared in doing business internationally. As one of the main players, the US market is studied for its relevance on the global economy and this opportunity will give a hands-on work experience and an interactive learning from actual entrepreneurs and executives who will share their knowledge and challenges with the students. The attendants will have a complete immersion in real projects of companies who are experiencing a hard time or issues that are affecting their performance. Startup cases will also be a part of the practical experience. During the 4 weeks internship period students will have the opportunity to contribute effectively in the resolution of the challenge faced by the company.

Visit www.globalbusinessunion.com/internships for further information on this program and further resources.

Learning Objectives: At the end of the internship students will gain:

- a. Improvement on student's field of study applied to practical cases.
- b. Overview of the US economy system and emerging industries.
- c. Work experience in American company actual projects.
- d. Direct interaction with executives, entrepreneurs and staff members.
- e. Career opportunity to acquire in international work environment.
